PROJECT SUN STREAK (U)

Session Procedures Report

## FORMAT

WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

Control Number: 'I'

Nickname:

Date of Session: 10 Oct 86

Target Country:

References:

Session Number: CRV-4

Date of Report: 14 Oct 86

Mission Status:

Technique Utilized: CRV

Source Identifier: RV-018

1. (S/NP/SK) TASKING: (See attached data sheet). Monitor board with CRV1-3 + ops officer's previous comments re. difficulty of target. (Ops. officer seemed almost desperate at this point, trying to resolve the problem of what best way to target ~~and~~ <sup>and</sup> and how best to evaluate results (all due to the paucity of tasking ~~info~~ targeting data).

2. (S/NP/SK) SESSION: Session was unique, in that a ERV ~~field~~ team member (cross-trained in CRV) was attempting a CRV session after a 4 month hiatus during which time he was participating in CRV training. Some seemed to be concerned (psychically) with an earthquake that was about to occur, and could not lock on to target. After a break, monitor switched cue from encrypted conductor to "Other I." That seemed to "do the trick." Source had P.I. of exhaustion.

'concrete' I' CRU-4 RV-018 (cont).

3. (S/NF/SK) Summary: Site has a number of "propped-ups" flat, circular, thick, smooth things, ~~black and white~~ ~~the wall is black and white~~ which seem to be the main attributes of the site. Site is offensive/defensive (not "Sam site") but, because of lack of immediate, real threat) is used primarily for training & VIP demos ("hi-tech show off").
